

President's Message – June 2014

Bernard Jordaan

This will be my final message in *The Voice* for this term of office. Thank you to all our members and affiliated groups for your continual support and placing your confidence in me for this year under review.

A special thanks to our Executive and Field Representatives whose volunteer efforts make the U.S.C.O. one of the most prominent organizations of its kind. In this month's publication, we have again provided a brief overview of our achievements and issues that are high on our Agenda.

So often I have to respond to the question, "What does the U.S.C.O. do for me" (for my \$2.00). Regrettably, we see many clubs withdrawing after posing this question.

Every member is a "shareholder" of this organization in addition, to being, part owner of 3033 Lakeshore Blvd West, Toronto.

We share the utmost respect, nurtured, for almost 58 years, by talented and dedicated seniors, earned from all levels of government and other Provincial Organizations.

Change does not happen overnight, so we pursue our causes, continuously. Eventually success comes our way.

Thank you again to all members for your continued support and to those that participated in our annual Walk-A-Thon to raise much needed funds.

In conclusion, we cannot function as an effective organization without the efforts of our staff, Bev and Maureen. On your behalf, I say many thanks for their efforts at 3033 Lakeshore Blvd.

Have a great summer.

Make every moment count.

Bernard
